	inpatient beds for COVID admissions.	
	Horizon returned to the red phase to lower the movement within the facility and	
	assist with unit outbreaks occurring	
	• A circuit breaker has been in effect in certain higher-risk areas of the province since	
	Friday, October 8, 2021 to restrict travel within the zones to curb the rise in positive	
	cases	
	• Within the past week, it is noted that the number of admissions has started to	
	decrease with the new measures in place.	
	In response to a question related to the impact of nursing shortages and the	
	pressures on staff to provide quality care, M. Melanson noted that although the	
	current situation is challenging, with the dedication of staff and constant monitoring	
	of the staffing needs, the quality of nursing and patient care has not been affected.	
	 W. MacDonald referred to the TORs of the Council, notably Functions, item 1, that DEAC provides patient family experience perpendive guidance and advise participing 	
	PFAC provides patient family experience perspective, guidance and advice pertaining to situations, issues and developments that occur which impact patient family	
	experience and care and raised concern about the impact of the current Covid	
	situation on the already stressed health care system.	
	 Through discussion it was noted that a lot of very good work was carried out by 	
	GNB in earlier stages of the Pandemic response, however in their opinion, less so in	
	the latter stages.	
	 Upon a motion made by J. Castonguay, seconded by R. Stoddard, PFAC 	
	recommended the Interim CEO of Horizon Health Network ask the government to	
	initiate an independent public inquiry into the provincial pandemic response.	
	Discussion on the motion took place and the motion was put to a vote. The motion	
	was carried by a vote of 6 to 1.	
	Action: M Melanson will bring this motion forward to Dr. Dornan, Interim Horizon
