Dear nursing colleagues and neighbours,

Our hospitals in Sussex and Sackville are in a precarious state and we need help. We are recruiting and training registered nurses (RNs) and licensed practical nurses (LPNs) in NB at an accelerated rate. However, this won't happen soon enough to give stability and security to our ERs and communities. Recent and foreseeable staff shortages are real, and we would like your help.

If you live in these communities and can help us with some shifts, our community and hospitals would be immensely grateful. If you are a nurse in New Brunswick and would consider traveling to these communities, we can cover travel costs.

Solutions to our collective dilemma can only work through cooperation between our towns, Horizon, and able/interested nurses. We don't need help on every shift but could breathe easier if we had a bank of skilled colleagues on which we could tap, depending on your availability.

Please email us at [Careers@HorizonNB.ca](mailto:Careers@HorizonNB.ca). Being part of our collective Community/Horizon team is our way forward, while we strive to make Horizon a preferred employer.

Thank you for your consideration and help. If you know of potential candidates that do not use Horizon email, please forward this invitation.

Sincerely,

Dr. John Dornan  
President & CEO  
Horizon Health Network

Brenda Kinney  
Vice President and Chief Nursing Officer  
Horizon Health Network

Marc Thorne  
Mayor, Sussex

Shawn Mesheau  
Mayor, Sackville
