

Securely accessing work applications from personal devices. Users can log in safely with extra security layers (multi-factor authentication) to tools like Remote Desktop, online portals, or Citrix, without needing a company-provided device.

1

Ensure you have completed your Multifactor Authenticator set up. [View MFA Guide Here](#)

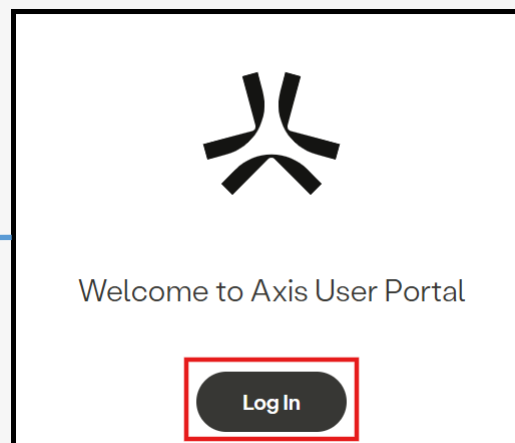

2

Open your web browser

Go to <https://connect-pnb.axisportal.io/apps>

3

Select **Log in**

4

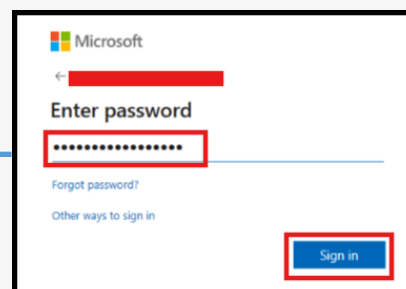

Enter **your work email**:

- User with no work email: Enter **UPN Username provided by IT Service Desk**

Click **Next**

5

Enter **Password** and Select **Sign in**

6

Approve sign in request on your device for Multifactor Authenticator
