

Palliative and Hospice Care

Horizon Health Network provides comprehensive palliative care services throughout New Brunswick to enhance the quality of life for individuals with serious illness and to provide support for families. Palliative care services can begin at the time of diagnosis or in the final weeks or months of life.

Horizon's interdisciplinary palliative care team offers:

- Specialized medical care for pain and symptom management
- Guidance for treatment decisions
- Psychological, social, emotional, and spiritual support
- Financial, legal and practical information
- Family, caregiver and bereavement support
