

## **Shaping the future of health care** by turning research into action, innovation into impact, and better ideas into better health for New Brunswickers.

The Atlantic Health Institute is Horizon's hub for research, innovation, and better health, turning evidence and ideas into practical solutions that enhance patient care, improve health outcomes, and strengthen the health system for the future.

- **ADVANCING COLLABORATION AND RESEARCH**  
Bringing together clinicians, researchers, partners, and communities to address priority health challenges and implement evidence-based solutions.
- **CONNECTING RESEARCH TO CARE**  
Helping providers and patients gain faster access to new treatments, technologies, and models of care.
- **IMPROVING CARE AND OUTCOMES**  
Advancing quality, safety, and efficiency through evidence-based solutions.
- **DRIVING INNOVATION AND ACCESS**  
Accelerating innovation and implementation for patients, providers, partners, and the health system.

**Horizon is proud of its status as a university hospital organization**, with the Saint John Regional Hospital designated as our university hospital centre, and The Moncton Hospital, Dr. Everett Chalmers Regional Hospital and Miramichi Regional Hospital serving as university affiliated hospitals.

### **Our Strategic Priorities**

- **Strengthen research operations** by building efficient infrastructure, processes and support services to enable high-quality research.
- **Embed research into clinical care** and our learning health system to drive evidence-informed improvements.
- **Deepen and grow partnerships** across universities, foundation, industry, provincial organization and other collaborations.
- **Accelerate innovation** by creating pathways to translate ideas into innovative solutions that improve patient care and health system performance.
- **Accelerate real-world improvements in care** through collaboration, cutting-edge research and technology.
- **Attract new research funding, partnerships and health care talent** to the province.

**Together, we are shaping the future of health care through research that puts people first.**
